Dear Mother

I have just got
back from Nettie's. I was over there about
half past nine this morning. They have
some very pleasant rooms where they are now
and with what furniture they have. Their
rooms look a good deal better than they did
in their old home. I want you to be chime
and send me a catalogue of the house for
this year. For I want to know how to plan
my stay here. Be chime and send it this
week. Burgess wants me to stay until January
but if I can't stay without interfering in my
school next term, I shall not remain longer
than till the next term commences, and then in
the course of an occasion about the catalogue.
Aunt Anna has visited me out there
I am going, which will be four weeks from
next Thursday. Did you have a pleasant
visit of Papoli, and did you see Ralph. I
suppose he is as green as the grass as ever,
and Lizzie I hear is to be married. Love a
great amount
