

day which makes me feel pretty good
The chief engineer on a railroad that is
being run in Michigan. Offered me the
chance to superintend the leveling and
getting the grade. but I thought that
as long as I have yet to go to school
one winter more I had better go this
winter and then here its done
with. I could have got \$75⁰⁰ and
expenses. but then I can get just as
good a thing with the Spring and
will have finished my Mathematics
course. of which I am bound to do.
Tell father to have the cutter painted
and upholstered right away. and
not put it off. if he does it will
not be done this winter. if he can
not pay for it I will when I come
home. because this will be my last
winter at home and I want a
good rig. and make the most of it.
I have not heard from Gilbert since
last August. I think that it is rather
long. I suppose that he has not to Indiana yet.
How many Bbls of apples is it other
going to have. he must have \$75⁰⁰
with the very evening. I hope so anyway.
well of how written. all I can think of
now so I will close. with much love
to all. I remain your loving son
P.S. Fred and myself are going to the Adellows &
Peoples Tabernacle to church to night.
