

will see the necessity of trying to do something for himself
Uncle has moved to Amherst but talks some of coming back to
Aston this spring but do not think he will. Mr Kent and wife
went back to New Hampshire last fall. your friend Emeline I
know nothing about whether she is in town or not I do not know
Sarah Wheeler is married to a Mr Starr that used to Clerk for
Hall Mary Hines Father is dead where Mary is I do not know
Sophrona Abbey has gone back to Connecticut so that is about
all I can say of those that you were acquainted with but I shall
have to stop writing for the present for our tea is ready we are
going to have some boild ham and potatoes I wish you were here
to eat with us Samuel is gone most of the time as usual

We have got through our supper and I have got my Baby in
the Cradle again now I will try and finish my letter we
are going to move next week in the house where Mr Finch
lives you will recollect I presume where that is we did
talk some of moving to Cleveland but have given it up for
this year. You wrote in your letter that Sylvia was
recovering but did not say how long she had been sick nor what
was the matter with her you do not write any thing that
is satisfactory about Sylvia I cannot but feel that there
is something rong about them somewhere what is the reason
you do not write all you know about them she never writes to me
I suppose she has forgotten that she has a sister living in Ohio
I have not heard one word from Russels folks since you left here
