

Olmsted May 22nd 1850.

Dear Children;

Being quite anxious
to hear from you, thought I would write;
Ada has written, several times, about her Mother,
being sick; but never has written any thing about
her disease. The last I heard she was some
better, not able to be up much I would like
very much, to hear, how she is getting along
and what the matter is. and how you all do.
We are all quite well at present. Mary have
now all gone to Sabbath school, excepting myself.
We have had a very pleasant spring, very
dry for the last three or four weeks. if we
do not have rain soon, crops will suffer much
